

# PLANNING FOR YOUR FINANCIAL FUTURE FOLLOWING DIVORCE

## 16 STEPS TO INSURING YOUR FINANCIAL FUTURE

Divorce hurts women not only emotionally, but financially, too. Some of the worst financial decisions are made during the throes of divorce. These decisions may affect the rest of your life and the lives of your family members. Beyond a divorce attorney, women need professional guidance to help them navigate the financial upheaval that divorce can bring.

Many women may have shared a financial planner with their husband, but things are different with the dissolution of marriage. There are so many questions unanswered:

- Will I be able to stay in my home?
- How will the divorce impact my taxes?
- What about the assets I brought to the marriage?
- What will I live on and will it be enough?
- Will I need to re-enter the workforce?
- How will I pay for my children's needs? Their education?
- Will I be able to live the same lifestyle I've enjoyed for years?

At Atlanta Financial, we help you answer these questions and the many others associated with divorce. We look at the big picture and then break down all of the details we need to address to develop and maintain your financial strength.
